## ABSTRACT

Senior Full Stack developer. I have over 15 years' experience in software development. I had experience in the tourism, finance, and e-commerce sectors. Also, I am interested in Machine Learning and Deep Learning algorithms.

## EXPERIENCE

### Booklogic, Istanbul, Turkey — Team Lead

FEB 2014 - PRESENT

My role is full stack developer and team lead. We are developing several solutions for hoteliers and travel agencies. Some of our solutions are channel manager, booking engine, revenue management, reputation management, CMS, PMS.

### WebLogic, Alexandroupolis, Greece — Web/SQL developer

JUN 2008 - AUG 2013

My role was web and SQL developer. We developed a platform for tour operators. So tour operators can manage their contracts, rates, CRM and bookings. The system supports accommodation, excursion, transfer, charter flights and other services (visa, restaurant etc.)

### Bogazici University, Istanbul, Turkey — Graduate Thesis

SEP 2005 - JAN 2006

Design Healthcare Database using HL/7 Standard

## EDUCATION
